BRANDING IS THE ART OF ALIGNING

what you want people to think about
your company with what people
(customer) actually do think about your
company. And vice-versa.

Our Brief

About the task in hand,
audience, company/brand

Task in our hand...

To develop below deliverables for a new Tech platform, DataSkate.io which will primarily operate in the data integration space.

- Designing the logo and overall brand identity
- Developing a dynamic, user-friendly website

About name - DataSkate.io

The concept behind the name being..

..the idea of effortlessly "**skating**" **data** from one place to another,

...while the "**io**" represents the input/output aspect.

DataSkate = "skating" data + "io"

Our Audience

Our target customers primarily consist of large enterprises that rely on multiple substantial applications to conduct their day-to-day business operations.
